- Outpatient clinic space at an HPHA site

The ideal candidate will be;

- FRCPSC certified or equivalent
- Registered with the CPSO (or eligible)
- Canadian Citizen or Canadian Permanent Resident
- Interested in teaching medical students & residents

About our Hospitals:

Huron Perth Healthcare Alliance was established in 2003, bringing together four community hospitals into one organization, with one board of directors and one management structure, one operating and capital budget and information technology platform. The four hospital corporations are Clinton Public Hospital, St. Marys Memorial Hospital, Seaforth Community Hospital and Stratford General Hospital.

The Alliance's four sites provide a broad range of inpatient and outpatient services to its catchment area. The Stratford site acts as a regional referral centre for Huron and Perth offering a broad range of medical/surgical inpatient services including critical care and neo-natal intensive care, supported with internists, pediatricians and surgical specialists such as ENT, ophthalmology, plastics, urology, general surgery and orthopedics. The Stratford site also provides mental health, maternal child, complex continuing care and rehabilitation inpatient services.

Stratford: A city of approximately 35,000 located 30 minutes from Kitchener/Waterloo and just over an hour from Toronto, located on the Avon River. Our community is broadly recognized as having North America's largest classical repertory theatre, presenting the works of William Shakespeare and other great writers. Few places in *Ontario* are lovelier or more alive with culture and character than *Stratford!*
