

MEDICAL EDUCATOR DAY PROGRAM

Optimization of the learning environment and prioritizing trainee education is an essential role in preparing medical students and residents for a successful career in the practice of obstetrics and gynaecology. Simulation, gamification, and EPAs are being used by Canadian medical educators in creative ways to enhance education and faculty development, and we wish to highlight our incredible teachers and lifelong learners to our obstetrician gynaecologist educator community.

This Inaugural Medical Educator Day, hosted by the SOGC's Academic Council, will provide new and experienced medical educators the opportunity to enhance their teaching and administration activities, while simultaneously networking with other educators from across the country. We are also pleased to be able to present the Carl Nimrod Educator awards at this session.

Learning Objectives:

- By the end of this program, participants will be able to;
- Recommend new methods for faculty and program development;
 - Integrate principles of diversity, equity and inclusivity into simulation learning and create low tech simulation tools for remote and rural teaching settings; and
 - Distinguish between the different learning approaches of the various generations

MEDICAL EDUCATOR DAY PROGRAM

**Wednesday,
November
30th, 2022**

**Li Ka Shing
Auditorium,
Li Ka Shing
Knowledge
Institute,
209 Victoria St,
Toronto, ON**

Welcome

8:30 - 8:45 AM

Dre. Diane Francoeur, Dr. Doug Wilson, Dr. Rashmi Bhargava

Using Data from an EPA Dashboard for Faculty Development

8:45 - 9:45 AM

Dr. Rashmi Bhargava

At the end of this session, participants will be able to;

- Utilize assessment data to improve individual faculty assessment
- Create faculty development strategies to identify and support struggling faculty members
- Consider how a faculty assessment dashboard could be adapted within your institution

Networking Break

9:45 - 10:00 AM

How Each Generation Lives and Learns

10:00 - 10:30 AM

Dr. Nancy Kent

At the end of this session, participants will be able to;

- Reflect on the differences that define the generations from Baby Boomers to Generation Z
- Utilize our differences to enrich how we teach and learn from each other

Panelist Discussion: Learning and Leading Across the Generations

10:30 - 11:30 AM

Dr. Nancy Kent (MC), Dr. Donna Fedorkow, Dr. Jim Bentley, Dr. Jena Hall,
Dr. Dini Hui, Sarah Valentine

At the end of this session, participants will be able to;

- Distinguish between the different generational approaches to learning
- Reflect on the available pathways that make you a better teacher

Lunch and Presentation of the Carl Nimrod Educator Awards

11:30 - 1:00 PM

Techno Teaching Tools and More

1:00 - 1:30 PM

Dr. Rashmi Bhargava & Dr. Christopher Morosky

At the end of this session, participants will be able to;

- Discuss methods for incorporating web-based teaching tools into your curriculum
- Utilize teaching technologies and gain familiarity with their functions.

Embedding Equity, Diversity & Inclusion into Simulation Scenarios

1:30 - 2:30 PM

Dr. Amy Nakajima

At the end of this session, participants will be able to;

- Name one element of equity, diversity and inclusion (EDI) that they would like to incorporate into their teaching; and
- Describe how to incorporate an element of EDI into a simulation scenario.

MEDICAL EDUCATOR DAY PROGRAM

**Wednesday,
November
30th, 2022**

**Li Ka Shing
Auditorium,
Li Ka Shing
Knowledge
Institute,
209 Victoria St,
Toronto, ON**

Get Real! Simulation does not need to be complicated to be effective.

2:30 - 3:30 PM

Dr. Valerie Mueller and Dr. Adam Garber

At the end of this session, participants will be able to; -

- Discuss low-tech, low-cost, high utility simulation initiatives and reflect on their use in one's local context
- Describe the elements of realism that can make a simulation effective

Networking Break

3:30 - 3:45 PM

Rapid Fire Key Articles in Medical Education

3:45 - 4:15 PM

Dr. Glenn Posner and Dr. Adam Garber

At the end of this session, participants will be able to;

- List innovations in medical education from the last year;
- Critically appraise research papers regarding medical education; and
- Summarize the findings of key papers.

Final Remarks

4:15 - 4:30 PM

Dre. Diane Francoeur

MEDICAL EDUCATOR DAY: SPEAKER BIOGRAPHIES

Dr. Glenn Posner
University of Ottawa

Dr. Glenn Posner is a Professor, clinician educator, and Vice-Chair of Education in the department of Obstetrics & Gynecology at the University of Ottawa. He is the medical director of the University of Ottawa Skills & Simulation Centre. Dr. Posner's program of research relates to the assessment of the intrinsic CanMEDS roles and patient-safety competencies using all forms of simulation.

Dr. Amy Nakajima
University of Ottawa

Dr. Amy Nakajima completed her undergraduate medical education at the University of Alberta and residency training in Obstetrics and Gynecology at the University of Saskatchewan. Amy has completed a MSc in Human Factors and System Safety (Lund University) and currently in the DrPH Program at the Dalla Lana School of Public Health (University of Toronto).

Dr. Nakajima currently lives and works in Ottawa, the traditional unceded territory of the Algonquin Anishnaabeg People. She provides community-based care at the Wabano Centre for Aboriginal Health and at Bruyère Continuing Care, and she is an active clinician-teacher at the University of Ottawa. A focus of her clinical and academic activities is working with patients for whom social determinants of health constitute barriers to receiving safe and effective care. She is an active member on multiple committees for the Royal College of Physicians and Surgeons of Canada and the Society of Obstetricians and Gynaecologists of Canada

MEDICAL EDUCATOR DAY: SPEAKER BIOGRAPHIES

Dr. Nancy Kent

University of British Columbia

Dr. Kent is currently a Clinical Professor in the Department of Obstetrics and Gynaecology at the University of British Columbia. She received her medical degree from the University of Toronto, her Fellowship in Obstetrics and Gynaecology from McMaster, and her subspecialty training in Maternal Fetal Medicine at UBC in 1992. In 2001 she obtained a Masters in Education from UBC, with a focus on curriculum design and interprofessional education. She has been actively involved in all levels of education within the UBC Department of Obstetrics and Gynaecology throughout her career. Her interest and her passion is medical education. She is currently a member of the SOGC Academic Council, enjoying the energy and excitement of the SOGC/APOG collaboration.

Dr. Donna Fedorkow McMaster University

Dr. Fedorkow graduated with an MD degree from the University of Calgary where she also obtained her FRCSC in Obstetrics and Gynaecology. After completing sub-specialty training in Urogynaecology and earning a MSc. Degree in Epidemiology, she joined the Department of Obstetrics and Gynaecology at McMaster University. She holds the rank of Professor Emeritus. She served as the Department's Continuing Medical Education Director, Undergraduate Program Director and Urogynecology Program Director. She is a Past President of the Society of Obstetricians and Gynaecologists of Canada. Her clinical and research interests include menopause, urogynaecology, conservative management of pelvic floor dysfunction and undergraduate medical education.

MEDICAL EDUCATOR DAY: SPEAKER BIOGRAPHIES

Dr. Jena Hall
University of Calgary

Jena Hall is currently a second year Urogynecology Fellow at the University of Calgary. She has a keen interest in medical education, having held several major educational leadership roles locally, nationally and internationally, and completing a Master's in Education at Queen's University during her residency through the Clinician Investigator Program. Her primary research focus and interest is in surgical education and the OR learning environment.

Dr. James Bentley
Dalhousie University

Dr. Bentley is currently Professor and Head of the Department of Obstetrics and Gynecology at Dalhousie University, Halifax, Canada. He received his medical degree from Leeds University UK in 1987 and completed residency at Dalhousie University in 1997. He then completed a two-year fellowship in Gynecologic Oncology in Winnipeg, Manitoba, Canada in 1999.

Dr. Bentley is Past President of the International Federation of Cervical Pathology and Colposcopy (IFCPC) and Past-President of the Society of Canadian Colposcopists (SCC). He is also Past-President of the Society of Gynecologic Oncology of Canada (GOC). Dr. Bentley is the past Chair of the Royal College Nucleus Committee for Gynecologic Oncology. He serves on numerous national and provincial committees involved with cervical cancer screening and gynecological cancer.

Research and clinical interests include cervical cancer prevention, colposcopy, clinical trials including the application of HPV Vaccines and chemotherapy trials.

MEDICAL EDUCATOR DAY: SPEAKER BIOGRAPHIES

Dr. Adam Garber University of Ottawa

Dr. Adam Garber, MD, MSc.(Ed.), FRCSC received his medical degree in 2010 from Western University and completed his Fellowship in Obstetrics and Gynecology in 2015 from the University of Ottawa. He completed a Senior Fellowship in Simulation Education through the Department of Innovation in Medical Education in 2016, University of Ottawa Skills and Simulation Centre (uOSSC) and a master's degree in health professions education through McMaster in 2017. Presently he is an assistant professor in the Department of Obstetrics and Gynecology at the University of Ottawa. His roles for the department of Obstetrics and Gynecology include Associate Program Director, Simulation Fellowship Program Director, and Competence Committee Chair. He is a member of the uOSSC simulation fellowship faculty. His academic interests lie in innovative simulation techniques, team training, and patient experience.

Dr. Rashmi Bhargava University of Saskatchewan

Dr. Rashmi Bhargava obtained her MD from the University of Saskatchewan in 1991 she found her love in women's health and completed her fellowship in OBGYN at U of S in 1997. She is in her 23rd year of practise in Regina, SK as a general OBGYN. She is an Assistant Professor in the College of Medicine (CoM) and has recently been appointed the role of Undergraduate Director for Obstetrics and Gynecology for the Province of Saskatchewan. She still holds the title of Site Lead for Year 2 clinical skills sessions as well as the Year 3 Clerkship Coordinator at the Regina campus. Her most recent exciting endeavor is becoming the Canadian delegate to the prestigious UMEC (Undergraduate Medical Education Committee) of APGO (Association of Professors of Gynecology and Obstetrics). To tie all the pieces together she has taken on Co-chair of the UG committee of Academic Council of SOGC (2021). Dr. Bhargava's passion lies in developing O&G curricula and innovative simulation scenarios for teaching purposes and OSCE's for medical students.

MEDICAL EDUCATOR DAY: SPEAKER BIOGRAPHIES

Dr. Valerie Mueller McMaster University

Dr. Val Mueller is an Associate Professor in the Department of Obstetrics and Gynecology at McMaster University. After earning her BSc in Kinesiology from the University of Waterloo in 1991, she entered medical school at McMaster University. In 2001, upon completion of her residency in Obstetrics and Gynecology, she completed a fellowship in Maternal Fetal Medicine at McMaster University. Dr. Mueller has dedicated her career to education. Within the Michael G. DeGroot School of Medicine, she has held the roles of both Chair, Clerkship and Electives, and as well, Clinical Education Coordinator at the Waterloo Regional Campus. She currently is in the role of Learning Director with the medical school.

Dr. Dini Hui University of Toronto

Dr. Dini Hui graduated from the University of Toronto Medical School and completed her residency in Ob/Gyn followed by a fellowship in Maternal Fetal Medicine. She has a specific interest in medical disorders of pregnancy. She is currently a staff physician at Sunnybrook Health Sciences Centre, University of Toronto.

MEDICAL EDUCATOR DAY: SPEAKER BIOGRAPHIES

Sarah Valentine

University of Saskatchewan

Sarah Valentine B.Sc. (she/her) is a third year medical student (and hopeful future Ob/Gyn!) from the University of Saskatchewan. She did her previous studies in Anatomy and Cell Biology with a thesis in the molecular mechanisms of treatment resistant breast cancer. She has interests in harm reduction & addictions, 2SLGBTQIA+ medicine, and climate health. She was thrilled to recently attend the SOGC's Medical Student Program in Quebec City and is honoured to be part of the inaugural SOGC School for Medical Educators.

Dr. Christopher Morosky

University of Connecticut

Dr. Christopher Morosky is an Associate Professor and Clerkship Director within the Department of Obstetrics and Gynecology at the University of Connecticut School of Medicine. He also is the Course Director for the preclinical Human Reproduction basic science course. Dr. Morosky is a member of the APGO Undergraduate Medical Education Committee, and he also serves as the Co-Chair of the CREOG & APGO Annual Meeting Film Festival. Dr. Morosky was involved in the creation of two APGO educational mobile device applications: "Managing Nausea and Vomiting in Pregnancy" and "Perinatal Depression".

Dr. Morosky is the Co-Chair of the Connecticut Perinatal Quality Collaborative, and he also serves as the Chair of the Connecticut March of Dimes Executive Board. Dr. Morosky is an associate journal editor for the review journal Topics in Obstetrics and Gynecology. He has several times been awarded the APGO Excellence in Teaching Award and the CREOG Faculty Award for Excellence in Teaching.
